# INTRODUCTION

- ❑ Quick Fix Hostel is a digital solution designed to simplify the process of handling hostel problems.
- ❑ It allows students to submit their complaints easily which directly notifies the resolvers.

# ABSTRACT

- ❑ Problems in hostels are always handled through complaints book which take significant time to resolve.
- ❑ To reduce the delay in resolution, we came up with this idea of complaining issues through an application.

# OBJECTIVES

- ❑ Quick resolution.
- ❑ Raising complaints made easy.
- ❑ Reduce manual work
- ❑ Equip technicians before hand.

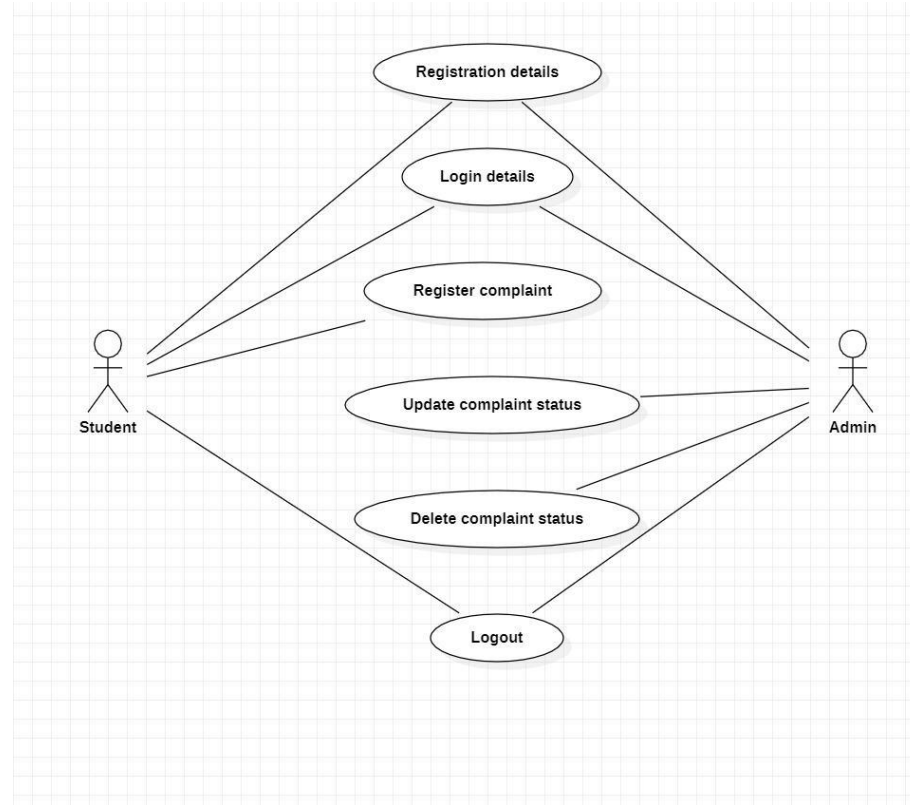

## EXISTING

- ❑ Complaints handled by book takes more time to get resolved.
- ❑ Complaint status check is difficult.
- ❑ Technicians are not exactly aware of the issues until they go through book.

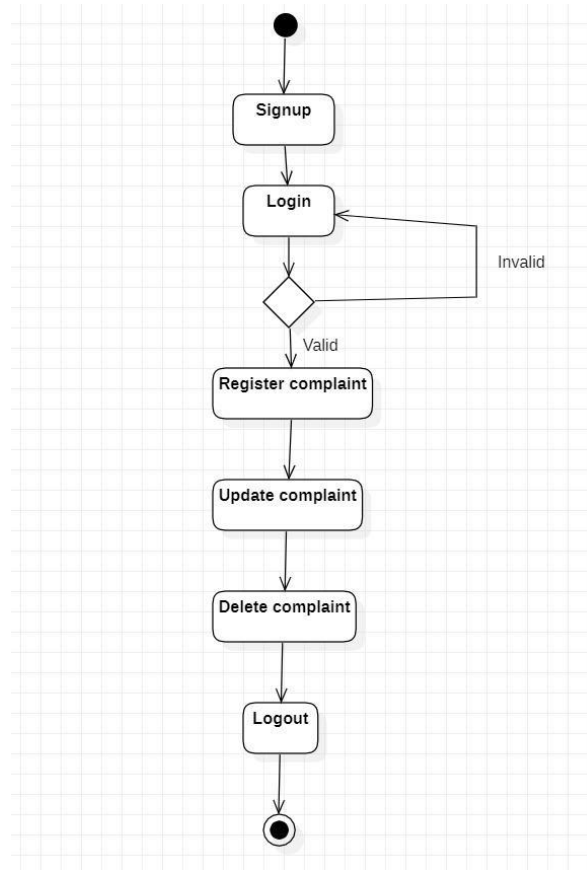

## PROPOSED

- ❑ Our project makes it easy to raise complaints.
- ❑ Can check complaints status easily.
- ❑ Technicians are notified beforehand to prepare spares.
